

AIR HANDLING UNITS  
INTEGRATED  
CONTROLS

TCF is able to supply complete solutions for the control of the air-handling unit

# Control components integrated in a dedicated technical compartment

# Complex solutions for precision control, possible combination with power boards

# Control board for 'niche' installation for heat recovery units, air-conditioning units and low profile AHUs

# Controls for indoor installations with components 'at sight'

# Customisations and logos available upon specific customer's request

TCF, the air the way you want it
